Thank you for the *Freedom* Magazine on the Internet. Ever since hearing about the viruses that could be planted in one's computer from being on-line with

the world and I am sure that wide publicity in your magazine is one of the best ways to fight it.

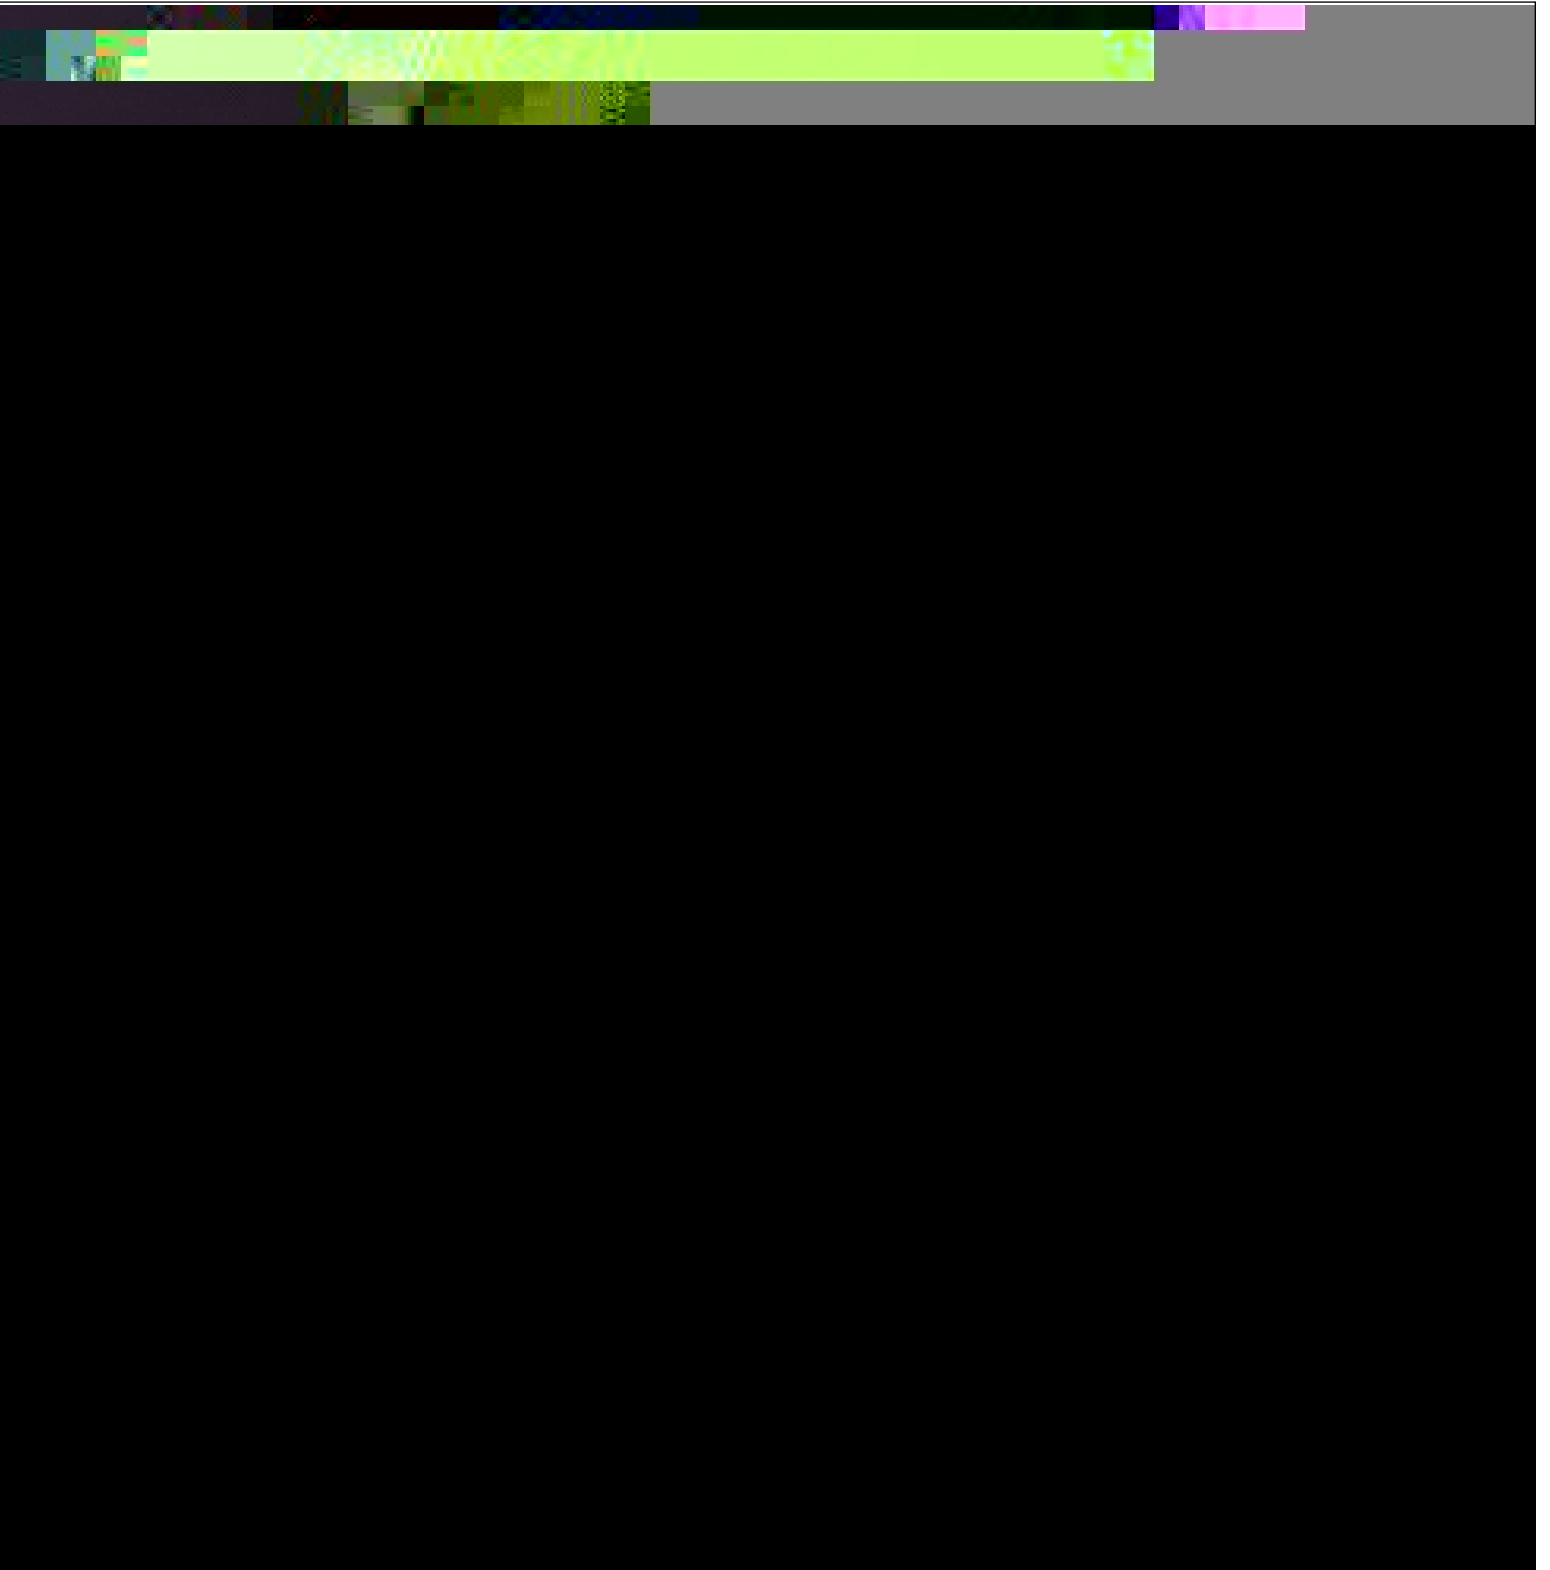

I hope many will follow you.

Uncovering the Truth About Jonestown

I recently came across some information about Jonestown I felt would be of interest to your magazine. (See "Jonestown, The Big Lie," **Special Reports Network**.)

My brother-in-law is a friend of a man who once worked for the U.S. State Department and who was one of the first to arrive at Jonestown following the murders. He asked his

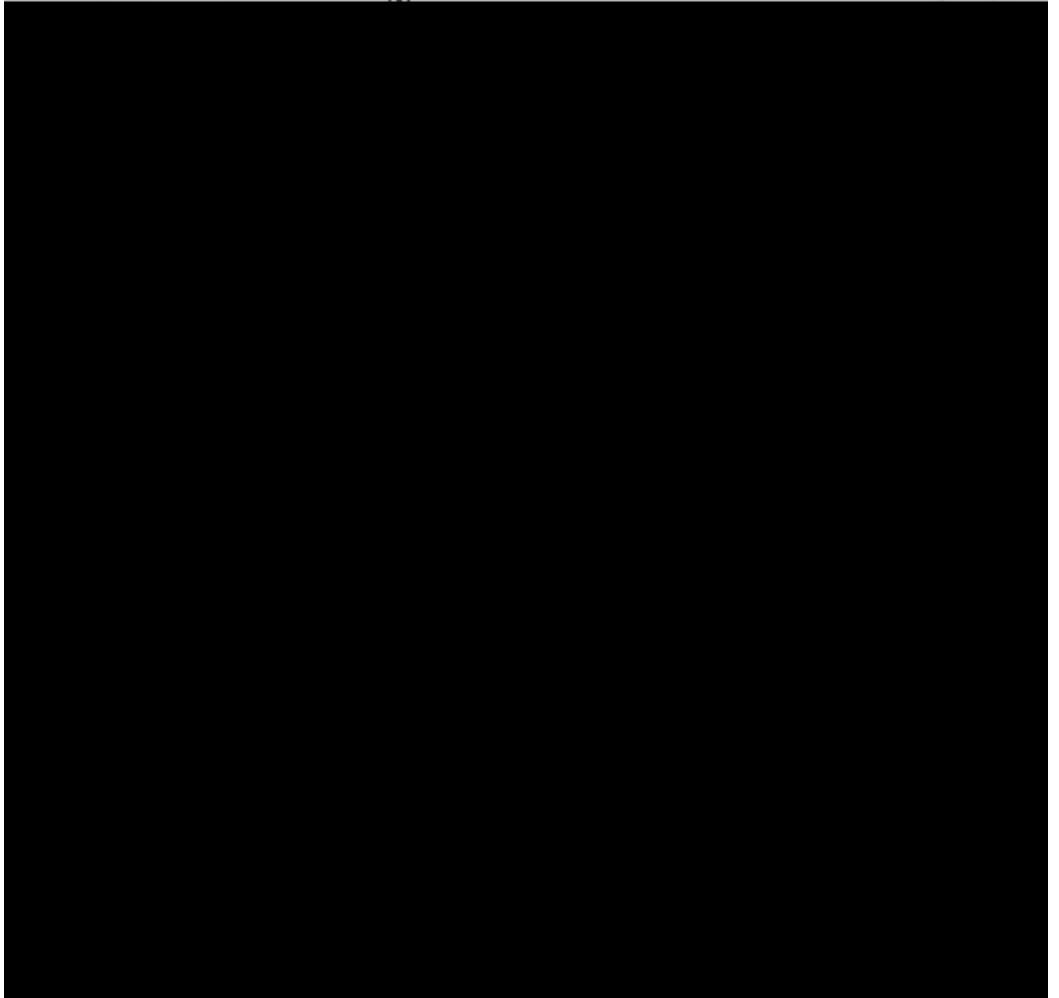

he wouldn't commit lawless acts which harm others. Yet, according to psychiatry, an "insane" criminal should escape responsibility for his acts and either go free or get turned over for further mind-warping treatment. Establishing ways for a criminal to claim innocence "by reason of insanity" thus completely contradicts and eviscerates the justice system.

This was not an accident. It is part of a systematic campaign to actually eliminate the sense of right and wrong, eradicate responsibility and take over the courts. In fact, World Federation of Mental Health (WFMH) cofounder J.R. Rees, put psychiatry's plans succinctly in 1940: "We can therefore justifiably stress our particular point of view with regard to the proper development of the human psyche, even though our knowledge is incomplete. We must aim to make it permeate every educational activity in our national life.... If we must infiltrate the professj'Oeven

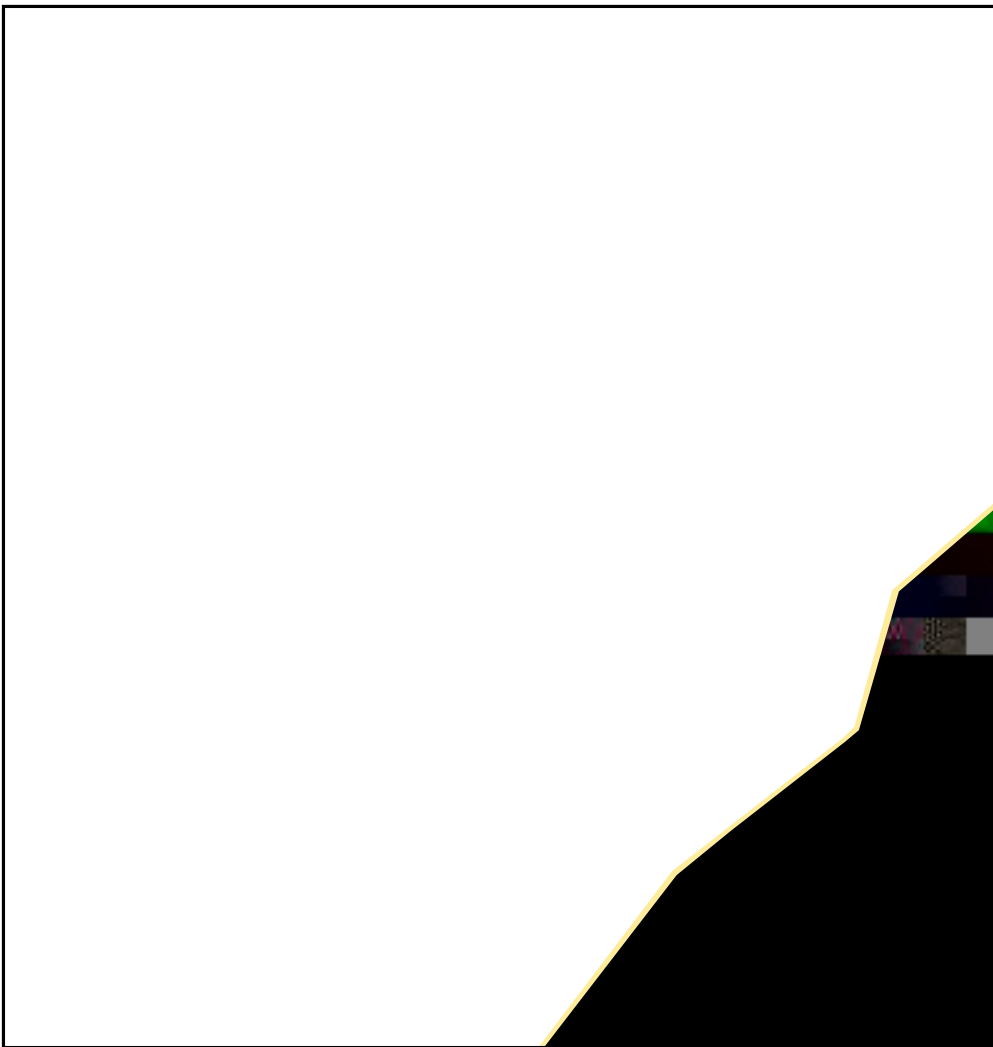

after a loss, agitation after an argument — and things which aren't "wrong" at all. They include "pain disorder" (e.g., those who experience headaches), "attention deficit disorder" (children who fidget), "obsessive-compulsive disorder" (such as

secret deal and perversion of justice.

Justice is Public

I

concerned citizenry that they would “get tough” on crime. Unfortunately, this banal catch phrase usually means more money poured into these destructive methods.

Richard Stratton, editor of *Prison Life* magazine, states, “The get-tough-on-crime attitudes of the '80s have given us rampant, desperate inner-city crime and violence in the '90s. If we continue with our vengeful attitude toward criminals (poor minorities, the mentally ill, those who have nothing to lose), the violence will only get worse until there is an all-out war between the haves and the have-nots.”

The Criminon Solution

The Criminon solution to the seemingly impenetrable rock of criminality is based on simple and straightforward truths about the mind and the human spirit. It is the antithesis of vicious and destructive psychiatric approaches and addresses the individ—

Lonstein says it is a challenge for her corps of volunteers to meet the extraordinary demand for the program. The materials are made available to the prisoner free of charge, provided by donations.

Criminon receives major assistance from individual members of the Church of Scientology, who have donated substantial time and money to assist in the rehabilitation

safer environment.

Official Recognition

according to Green, left Simeon in jail in

his payments are 30 percent less and he can afford the car that today he can't buy.

And what about the guy who works for the factory that makes the car? Well, when he has more work to do, he gets overtime pay. And maybe he will save some of that money and some of it goes back into the economy. The entrepreneur who is starting a business down the road and needs a new truck can get it at less cost, so he has more money to invest. And so the economy grows and expands.

Freedom:

had a ready diagnosis — sexual abuse.

Isabella went even further. When Holly told her that dad had once glanced at her in what might be construed as a suggestive way, Isabella did not even need to look it up in psychiatry's *Diagnostic and Statistical Manual* to label her father's conduct as "emotional incest."

Even with all this assistance, Holly's "memories" of sexual abuse did not "s loojHZychiat
